ALL-TERRAIN FORKLIFT

1500 KG

AUSA's most compact all-terrain forklift. With its 1,500 kg payload and extremely small size, it has outstanding handling and versatility.

It is ideal for labour-intensive work in the farming sector and in small-scale municipal works where small loads have to be moved.

The C150H is available with 4x4 and 4x2 drive, so there are options to meet every need.

C150H 1500KG
TRACTION 4x2 / 4x4 COMPEN®
POWER 18.5KW **WIDTH** 1300MM **TRANSMISSION** HYDROSTATIC

FEATURED EQUIPMENT

Tilting cab for easy access to the engine and components. **Ergonomic joystick** that controls the movements of the mast and the transmission. **Hydrostatic transmission** to ensure smooth and safe operation for the user. **Spacious driver's cab** for comfortable and safe handling. **Rotating beacon** for increased visibility on the jobsite.

ALL-TERRAIN FORKLIFTS

2000 - 2500 - 3500 KG

The most advanced range of compact forklifts available on the market. These powerful and robust models are equipped with the latest technology to achieve the best off-road performance with minimal fuel consumption.

They are designed for medium-scale tasks in the construction and agricultural sectors, reaching their full potential on difficult terrains thanks to their sturdiness and high payload.

They also have a digital display in the driver's cab which provides all of the machine's real-time information, allowing you to run self-diagnostics without the need for any external tools.

FEATURED EQUIPMENT

Tilting cab for easy access to the engine and components. **Ergonomic joystick** that controls the movements of the mast and the transmission. **Steering wheel with adjustable** height and reach, for optimum operator comfort and safety. **Digital screen** to access machine information and on board diagnostics. **Limited-slip differential** on the front axle, which transmits the necessary amount of power to each individual wheel. **ECO Mode** to automatically regulate the RPM to ensure low consumption and reduced maintenance costs. **Seat belt with a buckle sensor** and seat with presence sensor to prevent the machine from being used without following the minimum safety procedures. **Negative brake** which is automatically engaged when the engine is turned off.

C201H 2000KG
TRACTION 4x2 / 4x4 FULLGRIP®
POWER 18.5KW WIDTH 1520MM TRANSMISSION HYDROSTATIC

C251H 2500KG
TRACTION 4x2 / 4x4 FULLGRIP®
POWER 31.2KW WIDTH 1520MM TRANSMISSION HYDROSTATIC

C351H 3500KG
TRACTION 4x4 FULLGRIP®
POWER 31.2KW WIDTH 1780MM TRANSMISSION HYDROSTATIC

C501H 5000KG
TRACTION 4x4 FULLGRIP®
POWER 55KW **WIDTH** 2010MM **TRANSMISSION** HYDROSTATIC

FEATURED EQUIPMENT

Tilting cab for easy access to the engine and components.
Ergonomic joystick that controls the movements of the mast and the transmission. **Steering wheel with adjustable height and reach**, for optimum operator comfort and safety.
Digital screen to access machine information and on board diagnostics. **Limited-slip differential** on the front axle, which transmits the necessary amount of power to each individual wheel. **ECO Mode** to automatically regulate the RPM to ensure low consumption and reduced maintenance costs. **Seat belt with a buckle sensor and seat with presence sensor** to prevent the machine from being used without following the minimum safety procedures. **Negative brake** which is automatically engaged when the engine is turned off.

ALL-TERRAIN FORKLIFTS

5000 KG

The C501H is AUSA's all-terrain forklift with the highest payload. Designed for large-scale work, especially in the construction sector and for moving large materials.

Its large payload contrasts with its small size, allowing it to maintain excellent maneuverability on difficult terrains.

They also have a digital display in the driver's cab which provides all of the machine's real-time information, allowing you to run self-diagnostics without the need for any external tools.

All AUSA forklifts can be equipped with AUSAnow, the software used to remotely control machines, providing you with all real-time information.

Control your fleet of machines

From your office or with your mobile phone. Control all of your AUSA machines in real time. With AUSAnow you can anticipate any faults and maintenance, to reduce downtime.

Get information and make decisions

View or create your own personalised charts to obtain in-depth information about the operation of your machines and make decisions that are based on analytical information.

Connect security alarms

Establish a schedule and security perimeter. If one of your machines is moved outside the established area, AUSAnow will alert you straight away so that you can deal with it.

Data, data and more data

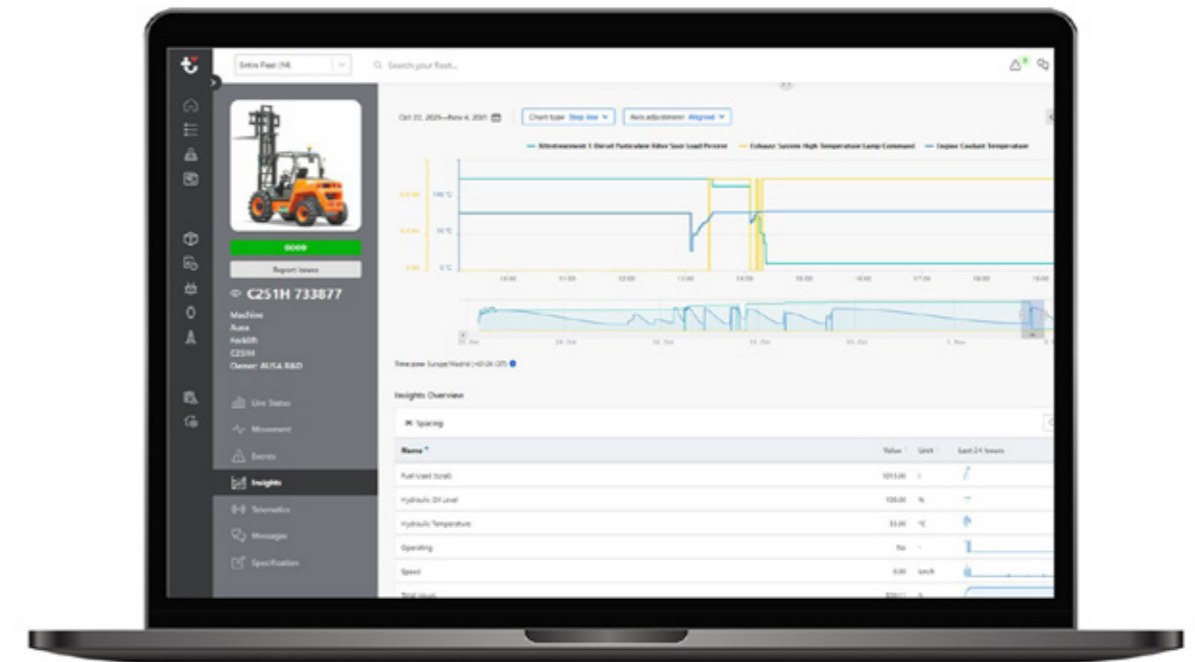

AUSAnow allows you to obtain advanced real-time information about your machine fleet. View advanced charts for customised time periods based on the parameters set by you.

Reduce downtime

AUSAnow connects you to your dealer or rental company, so that any appropriate maintenance can be performed. If you have a problem, AUSAnow provides you with a direct channel of communication with your machine supplier, so that it can be resolved as quickly as possible.

- Preventive alerts
- Attach images

Alarms for your peace of mind

Activate AUSA's recommended maintenance alerts and keep your machines in tip-top condition. And, for your security, you can program geofences and receive alerts if they go outside the established boundaries.

- Customise a schedule
- Set a perimeter
